Aryaan Sheikh

St. Louis, Missouri | (314) 640-3588 | aryaan314@gmail.com | www.linkedin.com/in/aryaan-sheikh-74b29120b | https://aryaan314.github.io/

Professional Summary

Information Systems and Technology graduate (BSBA, University of Missouri - St. Louis) with a Google IT Support Professional Certificate and hands-on ITSM and systems administration experience. Built end-to-end ServiceNow ticketing workflows (Incident, Problem, Change) and a self-configured Active Directory home lab, backed by front-end development experience from The Cigna Group's NEXT Program. Strong infrastructure troubleshooting and networking skills paired with a track record of communicating solutions clearly to non-technical users. Seeking an entry-level IT Support, Help Desk, or Desktop Support role.

Technical Skills

Enterprise ITSM & Workflows: Ticketing Systems, Help Desk Support, Incident/Problem/Change Management, Root Cause Analysis, Service Catalog, Ticket Reporting & Data Visualization, ITIL Framework v4, Knowledge Centered Service (KCS)

Operating Systems & Support: Windows OS, Linux (Ubuntu), macOS troubleshooting, Microsoft 365, Remote Desktop Support

Networking: TCP/IP, DHCP, DNS, Static IP Configuration, VLANS, VPN, OSI Model, Network Troubleshooting, Network Protocols, Command-Line Diagnostics (nslookup, ipconfig, ping), Wireshark

Systems & Administration: Active Directory, Group Policy (GPO), Windows Server, Organizational Unit (OU) Structure, User/Group Administration, Server Administration, System Configuration, Systems Analysis, IT Infrastructure

Tools & Platforms: ServiceNow (ITSM), React, TypeScript, CSS, Figma, GitHub, VS Code, Command Prompt, Powershell, VirtualBox, Draw.io, Microsoft Office Suite (Word, PowerPoint, Excel, Teams)

Certifications

Google IT Support Professional Certificate — Google / Coursera, *Issued June 2026* | View Credential

Projects

ServiceNow ITSM Lifecycle Implementation | Home Lab Configuration (GitHub Repository) *September 2026*

- Self-taught, configured, and deployed a complete ServiceNow ITSM environment in a Personal Developer Instance (PDI) within a 48-hour delivery window
- Built end-to-end incident lifecycles for Tier 1/2 tickets using ITIL-aligned priority matrices, service catalog workflows, and KCS-compliant Knowledge Base articles
- Configured Problem and Change Management pipelines, tracking multi-incident clusters to root cause and authoring risk-assessment and backout documentation
- Designed custom reporting dashboards to visualize ticket volume by category and priority for operational health tracking

Windows Server Active Directory & DHCP Deployment | Home Lab Configuration (GitHub Repository) *August 2026*

- Deployed a Windows Server 2022 domain controller and promoted it to establish a new Active Directory forest with integrated DNS
- Configured a DHCP scope for centralized IP management and joined a Windows 11 client to the domain, resolving DNS configuration issues during setup to enable a successful domain join
- Administered Active Directory Users and Computers (ADUC), creating Organizational Units, user accounts, and security groups to structure directory permissions
- Built and enforced a Group Policy Object (GPO) restricting user-level system access, validating deployment with gpupdate /force
- Documented network topology and domain architecture using Draw.io to support troubleshooting and knowledge transfer

Experience

Summer 2026 NEXT Program | The Cigna Group — St. Louis, MO *May 2026 – August 2026*

- Collaborated with a cross-functional team to design and develop Mindwave, a mental health tracking application that helps users log their mental wellness and receive personalized improvement recommendations
- Designed and implemented the Privacy Policy page using React, TypeScript, and CSS, ensuring clear communication of data handling practices in a healthcare context
- Used Figma for UI mockups and GitHub for version control and team collaboration throughout the development lifecycle
- Presented the completed application and development lifecycle to Cigna stakeholders at the program's final showcase

Sales Associate | Lucky Brand — Chesterfield, MO *October 2024 – August 2026*

- Diagnosed and resolved technical issues for 15+ customers per weekend day, logging resolutions and escalating complex cases
- Configured and managed POS hardware/software systems, resolving transaction errors to minimize system downtime
- Delivered hands-on technical training to new hires on internal software systems, consistently reducing onboarding ramp-up time
- Partnered with team members to identify workflow inefficiencies and implement process improvements

Education

University of Missouri – Saint Louis *Graduated May 2026*

Bachelor of Science in Business Administration — Information Systems & Technology Emphasis

St. Louis Community College – Wildwood *Graduated May 2023*

Associate in Arts in General Transfer Studies

Clubs and Activities

Information Systems & Technology Mentoring Club | UMSL *March 2026 – May 2026*

Information Technology & Cybersecurity Club | UMSL *September 2025 – May 2026*

Awards and Honors

Dean's List, UMSL Ed G. Smith College of Business *Awarded December 2025*
